

QUALITY POLITICS

COMETAL, S.L. company dedicated to the design, manufacture and marketing of sprinklers, hydraulic valves, fittings and accessories, mainly for irrigation, acquires the commitment to establish and develop a Quality System based on the ISO 9001-2015 standard.

The company complies with current Spanish legislation, especially with the commercial and labor code, occupational safety, respect for the Environment, and with a code of conduct educated and respectful of the entire society.

The company's philosophy is to be one of the organizations that best meets the needs and expectations of stakeholders within the sector, acquiring the commitment to comply with its requirements at all times.

To try to maintain their confidence, the organization is immersed in a search for continuous improvement opportunities in its products and services.

This commitment has led us to define a quality policy that must be understood and accepted by the entire organization; objectives, linked to time, measurable, and in accordance with the defined policy, as well as a quality management system with the necessary processes to give confidence to our customers, designing, manufacturing and marketing products suitable for the intended use and that meet the specified requirements and expectations of our customers.

The general management of COMETAL undertakes to provide its functional structure with the necessary resources and review the system established at defined intervals to achieve a profitable and effective business structure.

All the organization staff will try to develop a mentality of constant improvement in their job.

By applying the Quality Policy to all Cometal areas we will achieve maximum quality in our products. This policy is based on the following principles:

- Satisfy the needs of the client in terms of suitability for use, performance, safety and reliability of the product.
- Comply with the client's specific requirements and legal regulations.
- Prevent failures before they occur.
- Improve relationships with our customers and suppliers.

This policy will be communicated to employees, making sure that it is understood by them and on the website so that it is accessible to external stakeholders.
